EDUCATION

High School

College De La Salle
📅 2004 - 2018

Bachelor of Software Engineering
Egyptian Chinese University
📅 2018 - 2023

VOLUNTEERING

Scouts leader

St Michael Scouts Team

robotics & programming Trainer for children

JLU Center

PASSIONS

🏐 Volleyball

🚴 Cycling

🏇 Hicking

🚶 Traveling

SUMMARY

I am a software engineer with a passion for creating and deploying software solutions that can scale to handle millions of users and data. I have experience in developing and maintaining large-scale reliable applications, monitoring systems, data infrastructure, and streaming systems using various technologies and frameworks. I enjoy learning new skills and tools to improve the quality and performance of my work. My lifetime goal is to make people's lives easier, safer, and smarter through technology by solving real world problems and delivering value to customers and stakeholders.

EXPERIENCE

Network Engineer Intern

📅 Summer 2022

NOKIA

Understanding of Nokia latest technologies in IP Routing with hands on experience.
Development of the interpersonal and soft skills.

PROJECTS

Data Mining

Student academy performance detection

- Implement the models
- Design algorithms
- Design GUI

TELA (Graduation project)

A virtual fitting room iOS application, in which the users can scan their measurements perfectly and browse different styles and see how they would look in those clothes using Augmented Reality (AR) technology

SKILLS

Technical

- Microsoft Office
- Agile Software
- HTML
- My SQL data base
- Network
- Data Mining
- Python
- C+ +
- C#
- Java

Soft

- Self-Motivated
- Hard Worker
- Work under pressure
- Flexible team player
- Creative
- Problem solver
- Communication skills
